## 🔧 TECHNICAL SKILLS

**Languages & Frameworks:** PHP (Symfony, Laravel), Node.js (NestJS, Express.js), JavaScript, TypeScript

**Frontend (used occasionally):** React, React Native (Expo)

**Databases:** MySQL, PostgreSQL, MongoDB, ClickHouse

**Tools & Infrastructure:** Docker, Git, GitLab CI, Jenkins, AWS, Elasticsearch, Redis, RabbitMQ

**Architecture:** Microservices, REST APIs, GraphQL

**Testing & DevOps:** TDD, CI/CD pipelines, caching strategies, performance tuning

## 🌐 LANGUAGES

**German:** B1 (VHS certified), **English:** B2 (working proficiency), **Ukrainian, Russian:** Native

## 👛 PROFESSIONAL EXPERIENCE

**Softum** — *Senior Backend Developer*

*Remote | Mar 2023 – Jan 2024 | E-commerce sector*

- Built high-load microservices using PHP/Symfony and Node.js/NestJS for SMS/email marketing automation
- Developed a real-time reporting service with Node.js and ClickHouse — reduced report generation time significantly
- Designed microservices for microloan platform (PHP, Symfony)
- Participated in project planning and mentoring junior developers

**JBW Soft** — *Senior Backend Developer*

*Kyiv, Ukraine | May 2020 – Jan 2023 | EdTech / E-commerce (essay writing service)*

- Migrated a legacy monolith to microservices (PHP/Symfony, Node.js) — improved deployment speed and system stability
- Built notification system and Telegram bot using NestJS and MongoDB to automate client interactions
- Created a real-time request processing system using React, NestJS, and Socket.IO
- Led planning, code reviews, and mentoring; created new API endpoints for internal and external services

**Finko Finance** — *Backend Developer*

*Dnipro, Ukraine | Oct 2019 – Mar 2020 | Fintech sector*

- Worked on multiple fintech and ERP systems
- Integrated third-party financial services and optimized API response times
- Improved performance and handled incident development

**Noosphere Ventures** — *Backend Developer*

*Dnipro, Ukraine | Apr 2013 – Oct 2019 | E-commerce*

- Created and maintained APIs for high-availability e-commerce systems
- Designed and implemented a data warehouse (DWH) that significantly improved access speeds for analysts
- Optimized database queries and implemented Redis caching
- Led system monitoring and 3rd-party integrations

## || CAREER BREAK

### Jan 2025 – Now

- Focused on job search
- Learning English language
- Upskilling and personal project
- Learning new technologies and frameworks like Python, FastAPI, React Native, Expo

### Mar 2024 – Jan 2025

- VHS German integration course (B1 + Live in Germany courses)

## EDUCATION

### 2000 – 2005

- Dnipro National University, Ukraine — Master's Degree in Engineering

## ADDITIONAL INFO

- **Work authorization:** Authorized to work in Germany, Bavaria
- **Relocation:** Open to relocation across Germany
- **Preferred work type:** Open to remote, hybrid, or on-site
- **Team & culture:** Comfortable in agile teams, structured environments, or cross-functional collaboration
